EDUCATION

- Oriental Institute Of Science & Technology, Bhopal
Bachelor of Technology - CSE-AIML; CGPA: 8.14 (2023 - 2027)
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Databases
- New-age Public School, Gadarwara
12th (PCM + CS) - Percentage: 69.6%(2022 - 2023)
10th - Percentage: 78.2%(2020 - 2021)

SKILLS SUMMARY

- **Languages:** Python, C++,HTML, CSS, JavaScript, SQL
- **Frameworks:** Scikit, NLTK, SpaCy, TensorFlow, Keras, NodeJS
- **Tools:** GIT, MySQL, SQLite
- **Platforms:** Windows,AWS, GCP
- **Soft Skills:** Leadership, Event Management, Writing, Public Speaking, Time Management

EXPERIENCE

MERN Stack Developer Intern
Throne8 Technologies

On-Site
May 2026 – Present

- **Full Stack Development:** Worked on MERN stack technologies to develop and maintain responsive web applications with efficient backend integration.
- **Project Development:** Built and contributed to real-world projects using MongoDB, Express.js, React.js, and Node.js while improving problem-solving and development skills.
- **Collaboration & Learning:** Collaborated with team members in an on-site environment and gained hands-on experience in modern web development practices.

AI-ML Virtual Intern
EduSkills

Virtual
10 Weeks

- **AI & ML Fundamentals:** Learned the fundamentals of Artificial Intelligence and Machine Learning through practical concepts and applications.
- **Hands-on Learning:** Gained exposure to machine learning workflows, data analysis, and problem-solving approaches using Python.

PROJECTS

- **PathShala AI (AI-Powered Career Guidance Platform):** Developed an AI-based career guidance platform to help students and young professionals explore suitable career paths based on interests, skills, and market trends. Focused on solving the problem of generic career counseling. Tech: AI, Python, Web Development.
- **SubsidyChain (AI-Powered Government Subsidy Platform):** Built an intelligent platform to simplify access to government subsidies through multilingual support, an AI chatbot, and a user-friendly dashboard for discovering and applying to schemes. Tech: AI, Chatbot, Web Development.
- **MERN Stack Development Projects:** Worked on responsive web applications using MongoDB, Express.js, React.js, and Node.js with backend integration, improving problem-solving and full-stack development skills. Tech: MERN Stack, APIs, Database Management.

PUBLICATIONS

- **Research Publication: Federated Machine Learning Framework:** Published research on privacy-preserving predictive analytics across distributed edge devices under the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry. Tech: Federated Learning, AI/ML, Predictive Analytics.
- **Professional Certifications:** Completed industry-recognized certifications in Artificial Intelligence, Cyber Security, Data Science, IoT, and related domains from Cisco, Accenture, Infosys, and HackerRank.

HONORS AND AWARDS

- Completed reputed certifications in Artificial Intelligence, Cyber Security, Data Science, and IoT from Cisco, Accenture, Infosys, and HackerRank.
- Selected for Software Internship at Cognifyz, gaining exposure to full-stack engineering and development practices.
- Actively participated in hackathons, technical projects, and AI/ML-based problem-solving initiatives.

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

- **Google Developer Groups & Technical Communities**
Actively explored developer communities, workshops, and technical events to enhance knowledge in AI, ML, and software development.
- **Hackathons & Team Projects**
Collaborated in team-based technical projects and hackathons, focusing on AI-driven solutions, innovation, and problem-solving.
